

HANOVER® DETECTABLE WARNING® PAVER

Nominal 24" x 24"

23 1/2" x 23 1/2" x 2"

Persons with visual impairments depend upon environmental cues of potential hazards — ambient sounds and physical elements that can be sensed by a cane or texture changes underfoot. Any pedestrian area requiring the use of a detectable warning surface can utilize the Detectable Warning® Paver. The distinctively textured walking surface can help to warn pedestrians of an impending hazard on the route ahead.

Stocked Sizes	Stocked Colors
23 1/2" x 23 1/2" x 2" 597mm x 597mm x 51mm	Red 15 Charcoal
A nominal 12" x 12" Detectable Warning is also available and stocked in Red 15, Charcoal and Yellow.	
Please Note: Other sizes and colors are available upon request when quantities permit. Contact a Hanover® Representative for more information.
