

3M™ SCOTCH-WELD™ DP8005

HANOVER®
Architectural Products

Hanover® recommends the use of 3M™ Scotch-Weld™ Structural Plastic Adhesive **DP8005**, which is the strongest adhesive we've found for installations with concrete pavers. **DP8005** is a two-part acrylic adhesive (10:1 ratio) specially formulated to bond many low surface energy plastics, metals, ceramics, wood, and most other plastics.

DP8005 Black

3M™ Scotch-Weld™
(10:1)

- Creates a strong bond on low surface energy plastics (LSE) with minimal or no surface prep required
- Resistant to many chemicals, water, humidity and corrosion
- Medium viscosity allows for controlled dispensing
- 3 minute work life with 3 hours handling strength
- Strong adhesive can replace screws, rivets and welding

AVAILABLE FOR PURCHASE AT:

strobelsupply.com / rshughes.com / grainger.com

DP8005 requires the use of a 10:1 ratio cartridge/applicator gun. The model you select must also match the cartridge size of DP8005 in use (available in sizes ranging from 45mL to 490mL).

B26T400X10

Albion® 400 Series B-Line Manual
Multi-Component Cartridge Gun (10:1)
Cartridge Size 490mL

MP25

Dual Cartridge Epoxy Applicator
(1:1, 2:1, 4:1, 10:1)
